

TANK GUARD PLAN
for OIL tanks

Our Tank Guard Plan is a great way to limit your exposure to the high cost of an unplanned oil tank replacement due to failure. We will offer you full protection against the cost of repair and / or replacement of your oil tank for just \$19.95 per year.

How it works:

*Each July you will be billed for the annual fee of \$19.95. In return, if at any time during the Plan year (July 1 through June 30) your oil tank springs a leak, this plan will cover the cost to replace it.**

How to Enroll:

To enroll, simply fill out and return the bottom of this form. An inspection by one of our technicians may be required before your tank is accepted for this plan. This plan is automatically renewed annually and your account will be charged accordingly. One billing covers you for a full 12 months.

* This undertaking of Murray Oil & Propane extends only to replacement or repair as it deems necessary and proper and does not extend to: the cost of the removal or replacement of any part of the building necessitated by the oil tank repair, or replacement of any and all lines to or from the heating oil tank, or any code upgrades that may be required by State of Maine Oil Burner codes, and any and all other part of your heating system. In no event will the Company be liable for incidental or consequential damages relating to or arising from any leakage, spillage or other escape of heating oil from the heating oil tank or any part of your heating oil system for any reason or course whatsoever. This program is not available for tanks having a greater capacity than three hundred thirty gallons or to any underground tank.
